What answer would von Hindenburg find to make if the survivors of the stopped German drive should ask him now: "Where do we go next?"

Germany's boastful bulletins won't ease the sentiment created by her terrible casualty list.

It was always thinking himself better than anybody else that made the kaiser worse than anybody else.

"Putting bums and millionaires to work."

Well, that's a levelling process worthy of a democracy. Make 'em all do their bit.

If it is coming to a question of distance guns, why not have one that will shoot from France to Berlin? Reciprocity is a good thing.

Napoleon Bonaparte once said that the British seldom won a battle except the last one, and that is a thought which should steady some despondent minds to-day.

If Hindenburg doesn't hurry up he won't be in Paris by May 1st—a month behind schedule time.

Some of Ireland's agitators say that England is forcing conscription on Ireland so that Irishmen may be slaughtered off for England's own selfish ends.

Can it be possible that that is the reason why these agitators are fighting so against conscription—that the English may be slaughtered off for their own (the fighters against conscription) selfish ends?

MAKING CHANGES AFTER YOUR BUILDING IS STARTED IS EXPENSIVE

Then you do not know if the building is the way you want it until completed. You might have one idea and your carpenter another. To hire an Architect costs you too much.

WHY NOT LET US MAKE YOUR PLANS?

EVERY DETAIL WILL BE CONSIDERED
EVERY SPACE UTILIZED

Red Cross Notes

The following is the record of the splendid voluntary contributions donated by the residents of Chinook in aid of Red Cross work, and as collected by the Women's Institute, through the assistance of Mrs. Black and Mrs. Crockett. These contributions are to be made monthly until further notice. Everyone seems both ready and willing to do all possible to help on this noble work and have contributed liberally:

Goose Lake Line

IS BEING PUT IN GOOD SHAPE

About 300 men started to work this week on the Canadian Northern Goose Lake line, and the company's intention is to continue the work until the entire line is repaired and put in the best shape possible. The washouts and accidents to the line this spring and last have made necessary the expenditure of a great deal of money which will go principally into steam shovelling and ballasting.

We still have a bit of confidence in Gen. Foch. If we do our bit, it is pretty certain that the boys at the front will do theirs.

\$103.75

Mrs. A. E. Roberts was appointed by the Women's Institute Red Cross collector for the outside district.

The sum of \$73.00 was realized from the sale of the pig which was generously donated by Mr. and Mrs. Ed. Russell towards the funds of the Red Cross.

Optimists & Pessimists

DURING the last few days or ever since the announcement of Gen. Haig that the British army was standing with its back to the wall in France and that it was facing the most desperate crisis of the war, a great many Canadians have gone around with long faces and with despondency marked in all their countenance.

If they would carefully look back over the past few months they would find that the real cause of their disappointment and unwarranted discouragement is due to the foolish optimists and the misleading headline builders in the papers who were winning the war every day and in every edition.

They were buoyed up with false hopes and now they are weighed down with equally unfounded feelings of gloom.

The situation in France is not as bad as they now believe for the British or for the allies in general. It might be better and it will be better, much better soon as just as quickly as the American forces can get into the stride.

But the Canadian public would spare themselves any further needless periods of gloom over the war situation if they would give up paying undue weight to the feather brained optimists and also give up depending upon the big headlines for their knowledge of the war or any other important event.

One round of enthusiastic receptions has been the experience of Capt. Robt. Pearson, M.L.A., who has been touring the Province since the session prorogued explaining the work of the Red Triangle in England and France. Capt. Pearson is very optimistic regarding the campaign, and judging by the enthusiasm and energy with which the people are taking hold of it, is confident that the boys at the front will have their usual share of comforts, recreation and entertainments again this summer.

Vast Issues Depend Upon the Welfare of Our Men!

Cheer Up and Thank God for the Y.M.C.A.

TRY to picture yourself in the muddy cold trenches after exciting days and long nights of mortal danger and intense nervous strain. Rushing "whiz-bangs" and screaming "coal boxes" are no respecters of persons. You are hit! But despite shock and pain you still can face the long weary trudge back to dressing station. Weary, overwrought and depressed, you are prey to wild imaginings of that other coming ordeal with the surgeon. There are other "walking wounded," too! You must wait, wait, wait. And then—

Up comes a cheery Y.M.C.A. man, the ever-present "big brother" to the soldier, with words of manly encouragement. Close beside the dressing station the good generous folks at home have enabled him to set up a canteen. He hands you biscuits, and chocolate or coffee.

YMCA Red Triangle Fund

\$2,250,000, May 7, 8, 9

Canada-Wide Appeal

"In thousands of cases," writes an officer, "it was that first hot cup of coffee that dragged the man back to life and sanity."

The tremendous helpfulness of the Y.M.C.A. as an aid to the "morale" or fighting spirit, of the soldiers is everywhere praised. No wonder the Germans make every effort to smash the Y.M.C.A. huts out of existence.

The Y.M.C.A. is everywhere. You first met the helpful, manly Y.M.C.A. worker in camp, then on train and boat, at camp in England and in France, close to the firing line. Often he risks his life to reach you in the trenches. He has won the warmest praise from military authorities, statesmen—the King!

Have you a precious boy at the front? You cannot be "over there" to guide him away from fierce temptations of camp and city. You cannot comfort him in his supreme hour of trial. Your parcels to him are necessarily few. But the Y.M.C.A., thank God, is "over there," going where you cannot go—doing the very things you long to do—doing it for you and for him.

Will you help? This vast organization of helpfulness needs at least \$2,250,000 from Canada for 1918. For your boy's sake be GENEROUS!!

War Work Summary

There are:

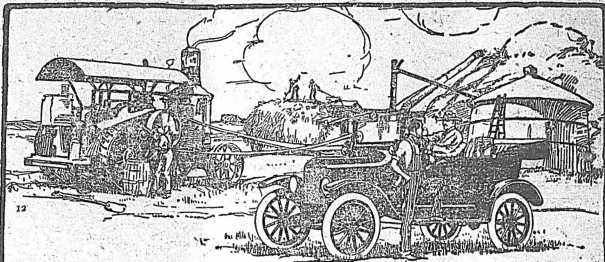

- 96 branches of Canadian Y.M.C.A. in France.
- 79 branches in England.
- Dozens of Y.M.C.A. dug-outs in forward trenches under fire.
- Over 120 Military Secretaries overseas.
- 300,000 letters a day written in Y.M.C.A. overseas buildings.
- \$133,000 needed for athletic equipment. (Helps morale of soldiers.)
- Y.M.C.A. saved hundreds of lives at Vimy Ridge by caring for walking wounded.
- Over 100 pianos in England and France, also 300 gramophones and 27 moving picture machines.
- Y.M.C.A. helps boys in hospitals.
- More than 60,000 cups of hot tea and coffee distributed daily in France—free. Estimated cost for 8 months, \$48,000.
- 150,000 magazines distributed free every month. (Estimated cost \$15,000.)
- \$125,000 used in 1917 to build huts in France.
- Concerts, sing-songs, good-night services and personal interviews energetically conducted. Concerts, lectures, etc., cost \$5,000 a month.
- Thousands of soldiers decide for the better life.
- Y.M.C.A. sells many needful things to soldiers for their convenience. Profits, if any, all spent for benefit of soldiers.
- Service to boys in Camp hospitals.
- Red Triangle Clubs for soldiers in Toronto, St. John and Montreal. Centres in Paris and London for men on leave.
- Out of Red Triangle Fund, \$75,000 to be contributed to the War Work of the Y.M.C.A.

Boys!

Here's your chance to do a fine stroke in the big war! Help the Y.M.C.A. to help your big-brothers overseas by joining in the

"Earn and Give Campaign"

Six thousand Canadian older boys are invited to earn and give at least Ten Dollars (\$10) to the Red Triangle Fund. That means \$50,000 in all! Sold! Five thousand dollars will be used for boys' work in India and China; another \$5,000 for the National Boys' Work of Canada, and \$50,000 to help big brothers in China. Ask your local Y.M.C.A. representative for information and pledge card. When you have submitted one or more units of Ten Dollars, you will receive a beautifully engraved certificate.

The Best Farm or Ranch Car

YOU would replace your "general utility" team with a powerful, sturdy, Ford car at once, we believe, if you but figured the matter out carefully.

The Ford is especially suited to western conditions and your needs. It is equal to rough roads, big loads and long distances. These are the very tests to which you will put your car.

A Ford will run your errands for repairs, grease, mail and countless other necessities quickly and cheaply. It will save you weeks of time and money. It will be one of your best investments. It will make prairie life more enjoyable. You need a car and need it badly. The Ford is the utility car for the Western Farmer.

Watch for the Sign of Paint Parity

ECONOMY
applied with a
Paint Brush

THE great national duty to-day is to "conserve." It's a duty you owe yourself as well as your country. A duty just as applicable to a house, or building, as it is to the things you eat and wear. Buildings, in fact, show so tremendous an increase in cost, that the importance of keeping them protected is apparent to all who know how steel, wood, brick and cement have jumped in price. And the cheapest protection you can give a building is the kind you apply with a brush—PAINT. For true protection, sooth the infrequent, cheap paints. Use only

B-H "ENGLISH" 70% Pure White Lead
(Genuine B.B.)
30% Pure White Zinc
100% Pure Paint

The kind we guarantee to possess as its important base, the above correct formula.

This formula, printed on every can, and guaranteed over the President's signature, commits us to this standard. High in cost as white lead has become, we must use it in the same proportion as heretofore. To use less of it, would necessitate the removal of the guarantee from our cans—and to do that would injure the reputation that these paints have acquired by reason of their superior ingredients. It is by using pure white lead and pure white zinc in such liberal quantities that we have been able to produce a paint that truly excels in covering capacity—and that stands the severe "climate test" of Canada in a way that spells true economy for all who use it.

Other B-H Products of Sterling Worth

We carry and recommend the following B-H products:

- For Interior Finishing: "Chin-Lac"—the perfect Varnish Stain.
- For Porch Floors, Ceiling and parts exposed to weather: Plaster Ceilings and Walls "Frescolette"—a flat tone oil paint.
- Varnishing a Floor: "Floorlustr" excellent for interior floors.
- For Barns and Outbuildings: Imperial Barn Paint.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made if any Dominion Lands Agency (not Sub-Agency) on certain conditions.

Dwelling—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within six miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$200 per acre.

Dwelling—Six months' residence in each of six years after earning homesteaded patent; also 30 acres extra cultivation. Pre-emption patent may be obtained as soon as homesteaded patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$1.50 per acre. Dwelling—Must reside six months in each of three years, cultivate 30 acres and erect a house worth \$200.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live-stock may be substituted for cultivation under certain conditions.
